On no other street in Richmond can the negro be seen in such numbers, and the visitor is struck with the immense number of persons absent from industrial pursuits, The ninth census discloses the facts that

our negro population is coming en masse to town, and leaving the country where their training in country pursuits might make them very useful; that the general impression that they are gravitating toward the South and likely to form black States is untrue, and that only one woman in five or six of the population in the South engages in any pursuit away from home. We are therefore likely to have them in our midst until removed by natural causes; exactly, as the negroes live now, crowding together in houses and cellars, feeding on improper and insufficient food, and accumulating filth around them; and, I may add, voting almost in solid line against the whites. What shall we do with them? Of course, no law can be passed to prevent negroes from coming to town, but is there not some plan somewhere in the brain of some Ango-Saxon which can accomplish the same results? The country is languishing for a kind of labor that is in Jennie A. Cheeney, Captain S. C. Arey, with great excess in towns. Last winter thoucould have lived without charity in the country, and assisted materially in agriculture, and during the coming wister these same negroes will be persistent applicants for any aid that may be dispensed.

No plan can be adopted (except a refusal on the part of real estate owners to rent to them) to lessen the number of blacks very soon; and the town Council should save all the work of the city for winter employment of labor. Opening and grading streets, putting down pipes, indeed; everything that breaks the surface, should be done in winter. Your health officers have already said this, and the continuance of such work and the absence of cleanliness have raised the mortality of Richmond equal to, if not higher, than that of New Orleans. One of our main objections to Governor Walker is that he has heretofore held, and, for anything we know to the contrary, now holds an attitude in relation to the James River and Kanawha Company which, at the least, must deprive him of all usefulness in furthering the measure now pending in Congress in relation to the extension of that improvement to the Ohio river as the grand water highway from west to east. He has officially, as Governor of Virginia, so spoken of that great enterprise that he will be powerless to aid the measure to which we look for-

upon the 28th instant on the evening of Monday the 20th instant, and notified the people of Richmond in the papers of the following morning. The State Committee had previously selected the 26th of August as the Powhite and vicinity, in mass-meeting asof our organization to support; therefore day for the assembling of the convention. Never before in the history of the Conserva- jor Joseph Walker, of the granite works, for tive party in this city had ever two full days intervened between the selection of delegates and the assembling of the convention. Why, then, was such a departure from the usual course-an extension of a few hours to nearly one month-we leave to the judgment and conclusion of the Conservative voters of this city. It has always beretofore been deemed a maxim in such cases that the shortest time should intervene between the two events. There are many good reasons why this should be so, some of which were stated in our petition to the would be granted, the reasons would have

been given more in detail. We believe that a majority of the Conser vernor Walker, and are confident that in a single-handed contest between him and any ment, we frankly state, was that the opposition to Governor Walker might have due and man. We think the request was a reasonable one, and the reason itself a good one.

This opposition would have crystalized in the person of some one some time ago if the opponents of Governor Walker had supposed that the City Committee would have been in such hot buste, against all precedent, to precipitate the primary election. But when the announcement was made in the papers of the 21st instant, some of the opponents of Governor Walker met on the following day: and the day after that to consult on the situation. The request to postpone and this protest against the refusal of the committee to postpone are some of the results of those meetings. Another result of those meetings was the nomination of Colonel John H. Guy as a candidate to be voted for at the primary election-a gentleman of the highest ability, integrity, and honor.

We present him to the voters of Richmond as a candidate in every respect worthy of their suffrages. Even under the disadvantages to which we have referred, we have great confidence that the people of the Third Congressional District will welcome him as their choice.

MANCHESTER NEWS.

SCHOOL COMMISSIONERS. On the 10th of July B. A. Hancock, Superintendent of Public Schools, recommended to the City Couneil the following gentlemen, to act as school commissioners: First Ward: Henry Firz-gerald. William J. Jones, and James A. Gen-try. Second Ward: Mayor Chiles, John H. Hatcher, and A. C. Atkisson. Third Ward. Rev. W. A. Campbell, E. B. Howle, and James A. Harrison, Fourth Ward: Rice.

These recommendations were referred to a committee consisting of Messrs. Eubank, Moody, Craig. Taylor, and Perdue. This committee reported Friday night in favor of the following commissioners:

First Ward.—Dr. William R. Weisiger. William H. Garnett, O. B. Sims. Second Ward .- Rev. W. G. Lumpkin, H. G. Archer, Dr. J. W. Bronough.

Third Ward .- Rev. William A. Campbell, F. C. D. Farmer, B. B. Weisiger, Fourth Ward .- Rev. D. B. Winfree, Rev. .J. Samms, T. W. Crow. The recommendations of the committee

were adopted. Messrs. Campbell and Winfree are the only commissioners recommended by Mr. Hac-cock who were returned by the committee. The reason assigned by the committee for their action was that no person should hold two positions of honor, trust, or profit. Messrs: Hatcher, Harrison, Gary, and Rice hold no position whatever.

Mayor Chiles and John H. Hatcher, E.q., have been efficient members of the School Board since the establishment of the freeschool system. It all the proceedings in the matter are

not pronounced null and void, the new commissioners will meet in a few days. There is considerable speculation as to the city school superintendent, the pay and perquisites thereof being such an inducement as to lead to great competition.

ABDUCTION OF AN INFANT.

On Saturday afternoon Detectives Knox and John Wren arrested a man named Myron Leasure, charged with being a suspicious character and having no visible means of support or ostensible business in this city. He was at the time standing on Franklin street in front of the Ballard house, where he was boarding, and was dressed genteely in black and had quite a clerical air. He had been seen several days before at a hotel in Staunton with a little sickly child. The child appeared to be much afraid of him, and his conduct was such as to excite remark, which was afterwards heightened by the fact that he stole away from the hotel and left his bill unpaid. From Staunton he went to Covington and from Covington to the White Sulphur Springs, and there the child died, and he then came to this city and buried it at Hollywood. HOUSEKEEPER competent to take charge of the kitchen, dining-room, and chambers of a SMALL FIRST-CLASS RAIL-ROAD HOTEL wanted. A rough model of the Richmond College memorial monument has been completed by the artist, and has been much admired by interested and competent judges. It represents a minister of the Gospel standing in open air, with his left hand resting on the Bible and his right raised in the air, while the whole position is that of an earnest, enthusiastic speaker. He is supposed to be quoting the words of the Saviour, "My kingdoin is not of this world," and the idea conveyed is the entire separation between Church and State. It is indeed a spirited work, and will prove a valuable ornament to
